Why are we collecting your information?

The Governance and Accountability Framework, which sets out the formal operating arrangements between Scottish Government and the Service, states that the Scottish Government will undertake a formal performance review of the SFRS twice per year.

These reviews are primarily to provide evidence that the SFRS is meeting the priorities within the Fire and Rescue Framework for Scotland 2016. They also serve as an opportunity to highlight good performance achieved through the Strategic Plan and the Annual Operating Plans.

The Annual Review takes the form of a public presentation by the SFRS Board to the Minister for Community Safety in September/October. A written submission of our

performance is required in advance of the review meeting to provide the Minister with information to scrutinise and prepare relevant questions.

We encourage your participation and involvement in our decision-making processes and facilitate open dialogue which will strengthen the voice of our communities, our partners and the public.

It provides a mechanism for you to raise any questions about the operations and performance of the Scottish Fire and Rescue Service to our Board or SLT members. This helps to foster transparency, trust, involvement and an understanding in our business.
